

TRANSFER OF WHITT SEAY PUZZLES OFFICERS

4 LABOR SPEAKERS ADDRESS A LARGE AUDIENCE; HELP IS GIVEN UNEMPLOYED

W. R. McCluskey, Vice Chair-
man of the State Federa-
tion, Presides

LOUIS BOWEN IS FIRST
SPEAKER OF EVENING

Has No Patience With Those
Who Fail to Try to
Improve

Representatives of the railroad
brotherhoods, Messrs. Rives, Waters
and Cadden, and Lewis Bowen, secre-
tary of the Alabama Federation of
Labor, spoke to a large gathering in
Carmen's Hall last night.

Mr. Bowen spoke first after an in-
troduction by W. R. McClus-
key, vice chairman of the state federa-
tion, who presided. Mr. Bowen said:
"Alabama is at the head of the list
alphabetically, but at the bottom edu-
cationally." In this connection the
speaker urged every laboring man and
woman to support education to the
limit. Said the speaker: "I haven't
any patience with those who go
around abusing the government, but
who do nothing to make it better. We
have the best government in the
United States there is in the world.
It is the easiest government in the
world to be controlled by the voters;
it is the easiest government there is
for the people to dominate and to
cause to function as we wish it to."

February last was named as the last
date this year on which poll tax can
be paid. "Pay your poll tax; have
your wife to pay and vote for men,
not jelly fish or folks who do not own
their own souls." Mr. Bowen present-
ed the company with a large supply of
literature showing the record of the
last legislature and his hearers were
urged to read and study it and vote
next August accordingly.

The speaker took issue with the
provisions of the Kansas Industrial
Court law and similar legislation. In
closing he made a stirring appeal for
all labor to live up to its privileges
and responsibilities.

Mr. McCluskey next introduced R.
C. Cadden, of the Brotherhood of Rail-
way Firemen. This speaker warned
his hearers against "attempts of
special interests to interfere with the
rights of working people." He blamed
the American laboring people for seat-
ing Harding as President when they
knew he had voted for such bills as
the E. C. Cummins bill. This speaker
gave Lincoln as an authority on the
rights of labor to organize and pro-
tect its rights.

J. R. T. Rives, legislature repre-
sentative of the Brotherhood of Railway
Conductors, was the third speaker.
He said every man should realize that
he belonged to the American Union
as well as to his trade union. Mr.
Rives warned against politicians who
brag on the children and bamboozle
"your wife into thinking he is a
smart, good man." The speaker con-
gratulated the audience on its size,
saying it was much larger than the
one at Florence.

Mr. Rives brought out cheers as he
closed with a poem, the last words of
which were: "No longer will I bow
in submission; I am labor and ask for
my rights." The last speaker was
Horace F. Waters, of the B. L. E.
union. Mr. Waters said that if peo-
ple were going to be content with
present attainments they had as well
buy ice cream with their money in-
stead of paying poll tax.

He said organized labor was not
all of labor, but it was the militant,
progressive element of labor. Speak-
ing of electioneering, the speaker said:
"You know in the church revivals we
have what I called 'personal work'—
now we need just that kind of effort
when election time comes around."

"At the close of the meeting Edward
Spain, president of the Central Labor
Union, took a collection for the bene-
fit of the brothers who were out of
employment.

In this connection John R. T. Rives
quoted from St. Paul: "Though I speak
with the tongues of men and of an-
gels and have not charity, I am be-

Decatur People May Vote Again For Bond Issue

Weakley Declares
Word Left Out on
the Ballots

CITY CONSIDERS

Interesting Point is
Raised by Attorney
for Buyers

Will Decatur be faced with the ne-
cessity of holding another election on
the issuance of \$100,000 worth of
school bonds, recently authorized by
citizens at a special election?

This question today was under con-
sideration by the city legal depart-
ment, following action of John B.
Weakley, of Birmingham, representa-
tive of a bond buyer, who raised the
point that it was possible the legality
of the bonds would not be upheld by
attorneys for bond buyers because the
word "school" was omitted in two
lines of the ballots in that part of the
ticket which gave instruction to
voters how to cast their ballot.

The lines read "Vote for bond issue"
and "Vote against bond issue." Mr.
Weakley contends that the lines should
have included the word "school."

The informal suggestion of Mr.
Weakley came at a special meeting of
the council when several bids were re-
ceived for the issue, but all were re-
jected. If the city's legal depart-
ment determines that the position of
the bond buyer is well taken, it is
probable that another election will be
called within a very short time.

There is an overwhelming senti-
ment in favor of the school bonds
among Decatur citizens and the bonds
as voted on sometime ago received a
strong endorsement, only a scattering
vote being polled against the issue.
There is little doubt that equally as
strong endorsement would be given
the issue should it be submitted again.

Several bond buyers have been in
Decatur within the past few days,
making bids for the bonds and Decatur
already has been offered some-
thing more than \$2. Officials believe,
however, that an even better price
will be realized.

BASEBALL FANS TO DISCUSS PLAN FOR SEASON ON FRIDAY

Officials of the Albany-Decatur
Baseball club and fans of the Twin
Cities generally will hold an important
meeting Friday night at 7 o'clock in
the Albany chamber of commerce
rooms when plans will be discussed
for the approaching season. The
meeting was called by Charles Roun-
tree, president of the local organiza-
tion.

Attention was called to the fact
that the conference will open prompt-
ly at 7 o'clock in order that it may be
concluded prior to the chamber of
commerce meeting which begins at 8
o'clock.

Recently the officials of the club
held a meeting and after discussing
the prospects for the season decided
to call a general meeting of fans when
it would be left up to the public
whether or not the Twin Cities shall
have a representative organization in
organized baseball this summer. The
last season was fairly successful finan-
cially, considering it was the first year
of existence for the Alabama-Tennes-
see league and prospects are bright
for even greater financial receipts this
year.

Officials of the club are confident
that the fans will decide in favor of
continuing professional ball here.

come as a sounding brass and a tink-
ling cymbal." Mr. McCluskey an-
nounced a generous collection as the
audience filed out.

EXCLUDE MAINLAND FROM PROVISION OF FOUR POWER TREATY

(International News Service)

WASHINGTON, Jan. 5.—While
the armament conference turned into
the home stretch today on the ad-
justment of naval limitations and
Chinese matters it became known of-
ficially that an agreement has been
reached between the United States,
Great Britain, Japan and France to
exclude the mainland of Japan from
the provision of the four power Pa-
cific treaty, thus removing one of the
chief causes of senatorial opposition
to it.

According to official British sources
the understanding will be consoli-
dated by means of a series of clar-
ifying notes rough drafts of which al-
ready have been considered by the
powers.

Other clarification of the pact, aside
from that referring specifically to the
Japanese mainland may be incorporat-
ed in the understanding. Informal
conversations are now going on with
regard to these and it is expected
that they will be concluded by Janu-
ary 14, the date on which A. J. Bal-
four, head of the British delegation,
plans to return to England.

The character of the other clar-
ifications, if any, are to be agreed
upon, was not made clear today but
it was predicted in responsible quar-
ters that by the time the treaty is
submitted to the senate of the United
States, it will be in such shape as to
remove nearly all the senatorial op-
position, except that of the out and
out irreconcilables. It was officially
announced this morning that the con-
versations between Japanese and
Chinese over the return of Shantung
will be resumed today.

Official announcement of settle-
ment is expected at any time along
lines already agreed upon by the new
cabinet in Peking, Japanese financial
and operative control of the Kiachow-
Tsinanfu railway.

The sub committee of naval experts
and technicians held a meeting to con-
tinue cleaning up odds and ends of the
naval agreement. It appeared today
that the submarine battle will be re-
served until tomorrow, as no meeting
of the whole naval committee was
called this morning.

LEGION'S MEETING IS CALLED OFF

The meeting of the Morgan County
Post of the American Legion, sched-
uled to have been held tonight at the
Albany chamber of commerce, has
been postponed, it was announced this
morning by Post Commander Roy C.
Billings. Postponement was made ne-
cessary because of the conflicting
schedules for use of the chamber of
commerce rooms.

The meeting will be called again at
an early date. The announcement of
the meeting, made by Adjutant Fred
Littlefield, carried the announcement
that the post soon is to have club
rooms and the new administration has
pledged itself to make the post meet-
ings as attractive as possible for the
members. It is planned to conduct a
membership drive soon for signing up
all old members and to get the mem-
bership cards of service men who heret-
ofore have not been members of the
local post.

SCOUTS MEET TONIGHT

The meeting of the Boy Scouts,
scheduled to have been held Friday
night, was moved up to Thursday
night, Secretary Nollan, of the Y. M.
C. A., announced today. The meet-
ing will begin promptly at 7 o'clock.

RECORD NUMBER OF TOURIST USING THE BEE LINE HIGHWAY; CAMP BIG FEATURE

Community Center Proves Great
Advisement for the
Entire Route

HUNTSVILLE ROUTE
CLOSED FOR REPAIRS

Nearly All Tourists Now Being
Routed Over the
Bee Line

The camp provided here for tour-
ists traveling the Bee Line highway
is being sought by many making the
trip, and has proved a splendid fea-
ture and rest place with some con-
veniences for the tired motorist.

It was provided by citizens of the
Twin Cities and is absolutely free to
the tourists to use on the trips to
and from the South. There are many
motorists that avail themselves of this
provision, and it has advertised the
Twin Cities in a way that is much to
their credit.

With the road between Huntsville
and Gadsden closed for repairs, all
motorists headed south from Nash-
ville or north from Florida now are being
routed over the Bee Line highway via
Albany-Decatur, Birmingham, Mont-
gomery and a great throng of tourists
has passed over the highway in the
past month, according to officials of
the Bee Line Highway Boosters as-
sociation.

The completion of the largest of the
bridges on the old right of way of the
Louisville and Nashville railroad be-
tween Cullman and Birmingham has
eliminated the only troublesome ford-
ing and the worst steep place in this
stretch. It is announced. The five-mile
detour between Bangor and Garden
City is still necessary, but no difficulty
is being experienced and it is expected
that the detour will be eliminated by
early spring.

Reports coming in to headquarters
of the Bee Line Highway Boosters in-
dicate that the tourist travel over the
highway this past season has broken
all records. With no more definite in-
formation to go on as yet except esti-
mates, it is thought that an average
of 300 cars a day was maintained dur-
ing the greater part of the season.

Motorists making the trip into or
out of Florida may get a free copy of
the official log book of the Bee Line
highway from information bureau or
on request from the association head-
quarters at Cullman, Ala.

SIXTY PAY POLLS FOR BACK YEARS HILL ANNOUNCES

The last fifteen days tax collection,
as reported by Tax Collector J. H. Hill,
show that for this period of time
there was collected \$145,000 of state
and county taxes.

Seventeen hundred polls have been
paid to date, with sixty being noted
for back years. A poll book has been
sent to Hartselle to facilitate the col-
lection of poll taxes, and each day is
showing a picking up in the number
over previous days.

Most of the large checks for taxes
have been received, according to the
collector, among the largest being the
Louisville and Nashville Railway Co.,
for \$31,223.12, the Southern railway,
for \$4,863.90, Southern Bell Telephone Co.,
for \$2,072.80. Tax Assessor H. O. Troup
announces that a 10 per cent penalty
will be taxed on those assessments
that are not made before February 1.

Typos to Gather This Afternoon

Members of the Albany-Decatur
Typographical Union No. 803 will
meet this afternoon at 4 o'clock in
Carmen's Hall. The attendance of
all members of the local was urged,
as several important matters will be
taken up for consideration.

JURY PROBING BOOZE FRAUDS

(International News Service)

WASHINGTON, Jan. 5.—Booze
frauds in a number of states, growing
out of thefts and forgery of govern-
ment whiskey permits, are to be ex-
posed by evidence now before a grand
jury, it became known today following
indictment of alleged principals in
New York's \$10,000,000 liquor with-
drawal liquor conspiracy.

New reports on frauds, similar to
those in New York, were before the
internal revenue bureau and these re-
ports, it was said, will supplement
others affecting the operation of boot-
leg rings in conspiracy with promi-
nent politicians and dry law officials
in a number of states.

Commissioner Haynes was astound-
ed by the revelations of revenue
agents. They show extensive thefts
of blank permit forms which bootleg-
gers filled out in order to obtain liquor
from warehouses. In New York the
frauds have not been confined to the
thefts of 300 blank forms, 200 of
which were used illegally.

Additional evidence today pointed
to the arrest and indictment of many
others. It appears that evidence
gathered and passed upon by the grand
jury has led into other directions.
The inquiry as it has progressed has
gradually multiplied the number of
principals and accessories in conspir-
acies to obtain whiskey by other than
legal means.

Local Men Recount Their Adventures During Trip Via Airplane to Magic City

With as safe convey as is possible
Messrs. O. Stoddard and Percy New-
some, local adventurers, made their
New Years Day air flight to Birming-
ham as safely as if they had been
conveyed by a bevy of beautiful an-
gels—which is to say that if every
hair of their daring heads had been
numbered before starting and the
count had been right, the same num-
ber of hairs would have been discov-
ered by an accurate accountant when
they touched terra firma in Central
Park, or the Fair Grounds, in the
Magic City. "In the very beginning,"
Mr. Stoddard said, "I want to deny
all rumors and false statements now
current that we did not fly at the rate
of 160 to 165 miles an hour. We did,
and that is what there is about it, and
that is all there is about it. A little
learning is said to be a dangerous
thing, and those who doubt our high
speed record seem to be ignorant of
the important fact that we were in
a 9-cylinder specially built high speed
machine guaranteed to go 180 miles
an hour, of French make, but built in
Manchester, England.

"The aviator, who was good enough
to take us up and over to Birming-
ham, is a Mr. Young, who is a photo
expert and is doing newspaper photo-
graphing for a Chicago firm. He was
bound for the capital city of Florida,
and stopped over in the Twin Cities
for a rest. The three of us, Mr.
Young, Mr. Newsome and myself, took
the air from the aviation field and
went north until just across the Ten-

nessee river. As I looked over to the
west I recognized the great smoke
stacks of the nitrate plant at Muscle
Shoals, and the smoke of the cities
of Florence and Sheffield. We head-
ed directly south, passing directly
over the Twin boroughs. They looked
good to me. Percy noticed some of
the suburbs and commented favorably
on them. Until we neared Hartselle,
we were around 3,000 feet up, and
could see everything distinctly. Open
places and woods looked like a check-
er board, as we roared along. We
were 5,000 feet high as we neared
Cullman, according to our altimeter.
We could just discern the Odd Fellows
home there. At first we were quite
chilly, but struck warm air currents
as we neared Birmingham. All this
was happening in about half an hour.
The Jefferson County building, 27
stories high, looked like a lead pencil
standing vertical. We circled over the
city once, and then descended at the
Fair Grounds, or Central Park, as it
is called now.

"We left home at five minutes to
two o'clock New Years Day and
reached Birmingham at 2:30. We
were out of our airship, had cleaned
it up and ridden on wheels to our
hotel by 3:05.

"We caught No. 4 back, and our
traveling companion was B. L. Ma-
lone. It remains to be said for the
airman who took us, that he has been
flying ever since and during the great
war, and that he fought the Germans
in the war, and has the distinction of
downing six enemy flyers."

Daily and Morgan County Showing Way to State in the Good Roads Campaign

Morgan county and The Daily seem
to be showing the way to the remain-
der of the state in the campaign in
behalf of the good roads campaign.

Sunday morning the business men
of Albany and Decatur subscribed to
a page in The Daily, publishing there-
in the catechism as printed by the Ala-
bama Highway Improvement Associa-
tion. The catechism asked the ques-
tions which probably are in the minds
of a large number of voters and then
answered the queries. It was a great
argument in favor of the adoption of
the \$25,000,000 road bond amendment.

Yesterday came to The Daily
a long distance telephone call from
Montgomery from highway officials
requesting 250 copies of the Sunday
Daily. It was explained that it was
the purpose of those interested in the
campaign to send copies of The Daily

to all sections of the state with re-
quests that newspapers ask their busi-
ness men to underwrite similar ad-
vertising.

The Daily was unable to supply all
of the 250 copies asked, never print-
ing very many more copies than are
actually distributed to legitimate cir-
culation, but what few papers were
left were forwarded immediately to
Montgomery.

The advertising was contributed by
the following well known business
men: J. H. Calvin, B. L. Malone,
Thomas A. Bowles, F. P. Tidwell, W.
W. Rahm, A. S. Blackwell, R. E.
Chandler, W. M. Chenault, F. P. Lide,

AIR OF MYSTERY IS CENTERED AROUND PRISONER'S RETURN TO FLORENCE JAIL

Prisoner Was Convicted Last
June of Slaying of
His Wife

SUDDEN TRANSFER IS
WITHOUT EXPLANATION

Seay Turned Over to Deputy
Davis Who Left Im-
mediately

(International News Service)

BIRMINGHAM, Jan. 5.—An air of
mystery centers about the transfer of
F. W. Seay, convicted wife murderer
from the Jefferson county jail here
Tuesday night to the Lauderdale coun-
ty jail at Florence, Ala.

Seay was convicted last June at
Florence of killing his wife and sen-
tenced to be hanged. Owing to the
high feeling which prevailed in Lau-
derdale county at the time of Seay's
trial and the rumors which were cir-
culated to the effect that a movement
was underway to lynch the man, Lau-
derdale county authorities deemed it
advisable to bring the prisoner here
for safekeeping.

Through his attorneys, Seay appeal-
ed to the supreme court for a new
trial. This action automatically sus-
pended sentence being passed on Seay
until the court could pass on the case.
Tuesday about midnight Deputy
Sheriff George Davis, of Lauderdale
county, appeared at the county jail
here with necessary papers and notifi-
ed the night warden on duty that he
had come for the prisoner.

Seay was turned over to Davis who
immediately left with him. Investi-
gation this morning of the circum-
stances surrounding the transfer failed
to reveal the reason why it had been
deemed advisable to return the prison-
er to Florence.

The warden on duty today declared
that he had not been informed of
Seay's transfer until Wednesday, sev-
eral hours after he had reported for
duty. Jefferson county authorities
had no jurisdiction over the prisoner,
with the exception of keeping Seay
safely confined pending action of the
Lauderdale county authorities, the
warden explained.

He declared that when Deputy Sher-
iff Davis came for the prisoner, armed
with the necessary papers, it was the
night warden's duty to turn Seay over
to him. The fact that Seay had been
returned to Florence did not become
known here until Wednesday after-
noon.

Efforts of the attorneys for the con-
demned man to prove that he is of
unsound mind is believed to have been
the cause of Lauderdale county
authorities taking Seay back to Flo-
rence in order that they may keep him
under observation. Since being con-
fined in jail here, Seay's actions have
been regarded as peculiar, according
to Sheriff Chris Hartsfield, who de-
clares that the prisoner recently made
an attempt to end his own life by
setting fire to his bedclothing. As a
result, Seay was transferred to an-
other part of the jail and kept con-
stantly under surveillance.

PERSIMMON TIMBER BRINGS GOOD PRICE

If the o'possum tribe could talk
there would in all probability emanate
from this smiling denizen of the woods
a protest over the cutting of the per-
simmon timber that is being obtained
and shipped to the large weaving es-
tablishments of the country, with
which to make shuttles.

Considerable quantities of this tim-
ber has been shipped from here and at
other points in the county in the past
year and is still being shipped. It is
understood that good prices are ob-
tained for this product that has until
quite recently been considered good
for nothing but to produce a diet of
which the o'possum is very fond.

A SERIOUS CONDITION

The United States produces more than half of the lumber cut of the world, and consumes 95% of that large amount within her domain. A note of warning is sounded by the Chief of the Forest Service that the exhaustion of our timber supply is coming about not because we have used our forests freely, but because we have failed to propagate our timber on the timber growing lands of this country. The problem is the enormous area of forest land that has been cut over and logged and burned, that it is producing no more trees that eventually yield more timber.

If we are to remain a nation large users of timber for various purposes, this condition cannot longer remain.

When one considers the large forest area that has been denuded of all timber that is fit for commercial purposes, and then the torch applied every year, it is not hard to reach a logical conclusion in regard to its future.

The railroads require annually 125,000,000 cross ties each year to maintain the road beds, and those conversant with the conditions in our own territory known that much valuable timber is wasted, and the young growth annually destroyed by logging and fire.

WORK WILL LIVE

The work of Henry Watterson will live long after his frame has mouldered back to mother earth. He was a creator of ideals, dressed them in the most forceful language, and presented them to a world where they were received, and the impression made was of a lasting character.

He could write the most caustic indictments that ever emanated from any of his brethren of the quill, and then again his writings were as gentle as the bosom of some placid lake where not a ripple was to be seen, and not a zephyr fanned its surface. His writings were the outward glinting of a high and splendid spirit.

To these great men that have gone out and on, there is much to regret, for their work, their individuality, their realism, that which made them what they were—the soul—that spoke out from the tongue, can never be duplicated, and thus the world is poorer for their going.

CAT OUT OF THE BAG

The cat is out of the bag. The interests other than Mr. Ford that are bidding for the Muscle Shoals property have announced that should they get the property, the manufacture of nitrate would be sold to the fertilizer factories, and they in turn would sell to the farmers, at an advance that would not be in keeping at all with the proposition of Mr. Ford. The proposition of Mr. Ford to manufacture nitrates and sell to the farmers of the United States at not exceeding 8% above cost of manufacture, is a feature that should commend itself to the thoughtful man in an appealing way. Any other plan so far proposed does not touch the latter proposal from any angle and should not be considered.

Mexico, poor savage Mexico, will reduce her expenditure for the arts of war the present year \$30,000,000. She announces also that the government will expend for educational purposes, the large sum of \$50,000,000.

Can this be true, and yet it is. Torn asunder by revolutionary hands for a number of years, failing to reap harvests that ought to have been, from the fact that her people were thinking of other things, she seems suddenly to have awakened from this wild orgie, and in the above statement will approach sanity through two avenues that never failed, peace and education of the masses. An object lesson that other nations, in this respect would do well to copy.

Gentleness of manner is a most distinguishing mark in any individual, and is a winner in the game of life. It possesses itself of those finer qualities that are at once recognized in any one so fortunate to be possessed with it.

In all the walks of life, business, social, friendships, all are cemented the closer by this happy faculty of gentleness, a tender regard for others.

We are going fast. Are we making progress, or are we wearing ourselves out like a meteor that flashes across the heavens and is brilliant for a moment and is then lost to view? Some fellow said:

That the more we learn, the less we know,

The faster we run, the slower we go.

Some food for thought in those two lines if carefully studied. On first reading this fact may not appear, but read two or three times, the fact is evident. The more we learn along the line of

theory, the less we know of the fundamentals of life. The faster we go, we may outstrip for a while, but are forced to go back and start at the beginning in order to set ourselves right. Start right and keep the pace.

The issue as between Mr. Ford and other parties who have made it known that they will bid for the Muscle Shoals has resolved itself to this analysis; the peoples choice against the field. The last statement emanating from Florence that some who are bidding for the property stated in regard to the manufacture of a valuable product there that would be of great value to the farming interests of the country, is to the effect that it would be handled through the fertilizer factories, should eliminate them from the possibility of acquiring the property at all.

During the war day's there was a noted absence of book agents. Every fellow who wanted to work was making more money at something else, and there was no disposition to peddle books. Now there is quite a likelihood that the book agent will be as numerous as formerly.

One fine thing about a fellow who has made a bid for a proposition, is that he has the money, and don't have to raise it, has it where he can just take hold of it. This in itself is entitled to some favorable consideration.

The human race is not so dull after all. As compared to last Christmas and New Year's seasons, the death rate from hootch whiskey was comparatively light. Only a few score took the poison dope route to death this season.

As an evidence of stupidity of management some where, the federal shipping board would not sell 285 wooden ships, until compelled to do so by mandamus. Wonder if anybody is wooden headed enough to require similar proceedings in order to get the Muscle Shoals sold.

According to best information, lots of people have resolved to continue to read this daily messenger for the next decade, and longer. In recognition and in appreciation of that decision, the force has adopted as their first and foremost resolution that they will make it very readable for ten years and longer.

Nobody objects, if it is any pleasure to Joe, for he wrote a good book on "Wilson as I Knew Him," but the writer makes himself out one of our great Presidents as well as Mr. Wilson. Mr. Tumulty was strong on advice, we say he was!

The present disarmament conference is a bad second to the League of Nations. The nation got stung when it turned down Mr. Wilson's League, and it is getting stung again, by the Harding et al league.

Rather than wait, Henry Watterson began publishing a newspaper on a four wheeled wagon. Such acts as that helped make "Marse Henry" a wheel horse in journalism.

Woodrow Wilson is seen between every line of the proceedings of the disarmament conference. Even his favorite number is found in by addition the accepted ratio 5-5-3.

Not such a bad typographical error made one of Henry Watterson's editorials say in part of a dead comrade—"He entered the ship that knows no rocking," rather than "He entered the sleep that knows no waking"; as Mr. Watterson originally wrote.

If as many people knew how to drive a car as own one, it would not be so important for the police to keep a record of their number.

In the far West, they took what they wanted as the pistol point; all those in the far East have to do is to ask your Uncle Sam for \$20,000,000.00 and get it.

Suppose the world of business don't go round to suit you—Will it make it any better to only stand and fret—or worse still sit and be a grouch.

Don't get too impatient over the return of Grover Cleveland Bergdoll. He will come back again as soon as the turn keys of the disarmament conference lock up the god of War for keeps.

Let us hope that the powers that are to guard the Pacific under the new treaty, will get along better than do subjects of the same governments who are guarding the tomb of the Savior.

If the Naval disarmament committee had included in their report, in addition to the ratio of 5-5-3, that after the holiday of 10 years it was to read 0-0-0, what would you have thought about it?

The strict religionist who whipped his boy for thinking d—n it, was absolutely right, for as men and boys think, so are they.

Filling out one income tax sheet is bad enough, but suppose you had half a dozen to make out, could you take the famous advice of Pollyanna.

President Harding says there is good business ahead in 1922. Warren certainly knows what makes good copy.

Will Newspapers Come to This?

Just what is the difference between advertising, publicity, and notoriety? We have often pondered the question. In looking up definitions we find that Mr. Webster draws a mighty fine line between advertising and publicity; a sort of distinction without a difference. Our conclusion is that we pay for advertising and when we get it for nothing it is dubbed publicity. Notoriety means very much the same but this term is used in an unfavorable sense.

Now how shall we characterize the custom of introducing a motion picture by flashing the names of the staff employed in its making? Sometimes there are a dozen or more participants from the director to the stable boy, all unknown and likely to remain obscure individuals in spite of the publicity thus forced upon impatient audiences.

Suppose we got out an issue of The Daily with this announcement:

BELGIUM'S RIGHTS
STUMBLING BLOCK

(International News Service)

CANNES, Belgium, Jan. 5.—When the allied experts met today to work out details of the agenda for the supreme council meeting, beginning Friday, it became apparent that Belgium's priority in the manner of distributing German indemnity was going to be one of the stumbling blocks threatening the success of the conference. It is understood the British will request Belgium to renounce priority rights to a share of the first 2,000,000 gold marks to be paid by Germany.

Senator Penrose
Buried Thursday

(International News Service)

PHILADELPHIA, Jan. 5.—Senator Boise Penrose was buried today in the family plot at Laurel Hill cemetery. Three funeral services preceded the simple ceremony of interment.

A drizzling rain lent a weird aspect to the burial of the political leader. The grave of the senator is between that of his father and the grave of Katherine Drexel, wife of Dr. Charles B. Penrose.

The simplicity of the ceremony was in strict accordance with the senator's wishes.

Youth Hit Twice
By Same Truck

(International News Service)

ATLANTA, Ga., Jan. 5.—Run down by a truck which witnesses say struck its victim while its driver was trying to pass a standing street car, B. F. Sewell, son of an Atlanta policeman, was severely injured here this morning and received further injuries when the truck again ran over him as the driver tried to maneuver it to assist persons trying to extricate Sewell.

Many ambitious men and women live
only half a life—and don't know it

No person whose nerves are continually irritated, whose appetite and digestion are disturbed, or who doesn't sleep well has more than half his normal chance for success in life. For weakness, debility, anemia and general lack of tone are a serious handicap to anybody.

Those who drink tea or coffee are often sufferers from these conditions. Tea and coffee contain caffeine, a substance which has a decided stimulant action on the nerves.

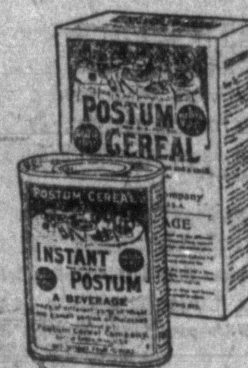

Each cup of strong coffee contains about as large a dose of caffeine as your doctor would ordinarily give to a very sick person.

You can readily see that the effect of giving this stimulant regularly to a well person might finally have a tendency to make him sick.

If you want to avoid a very common cause of irritation and enjoy restful sleep, good digestion, and the feeling of vigor and robust endurance that comes to healthy, normal people, quit tea and coffee, and drink Postum, instead. It is a rich, coffee-like cereal beverage—perfectly delicious!

Order Postum from your grocer today. Drink this fragrant, aromatic beverage and see how much better you'll feel—able to do more without becoming fatigued—as thousands have discovered for themselves.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes. Sold everywhere!

Boost Campaign For Bond Issue

Indications today were that there will be a big crowd at the meeting in Austinville Friday afternoon to hear the good roads bond issue discussed. The meeting was arranged by the good roads campaign committee of the League of Women Voters, of which Mrs. W. B. Edmondson is chairman. The meeting will be held in the Austinville school house at 2:30 o'clock, and Judge L. P. Troup will deliver an address.

Chamber Elects Officers Friday

Officers for the ensuing year will be elected by the Albany chamber of commerce at a special meeting Friday night. A musical program will be rendered and smokes served. Inasmuch as the demands of the present year probably will be very heavy on civic organizations in this section, the attendance of as large percent of the membership as possible, was asked by the retiring officers.

EPIPHANY SERVICE
Friday being the Feast of the Epiphany there will be a celebration of the Holy Communion in St. John's Church at 10:30 a. m.

THE NINTH STREET MISSIONARY SOCIETY
The Ninth Street Methodist Church Missionary Society met at the home of Mrs. B. B. Caviner on January 2. As that was the day for the installation service, Rev. J. W. Curl served as leader.

After the installation of officers, a short business session followed and the meeting was closed with the Lord's Prayer in concert.

The hostess assisted by Mrs. George Stroup, served refreshments.

MISSIONARY SOCIETY CENTRAL M. E. CHURCH
A most pleasant and profitable meeting of the Missionary Society of the Central M. E. church was held Monday afternoon at the home of Mrs. D. C. Adams. Mrs. Proctor read the scripture lesson and gave a talk on "well conducted living" and "New Year resolutions." Mrs. J. H. Donnell took charge of the literary program, giving a short sketch of Africa. Mesdames McDougald, Zeno Bailey, D. W. Speake, D. C. Adams, J. H. Donnell, J. L. Proctor, and R. H. Wolcott, representing a Missionary Society, discussed the African Mission and showed that Africa's need was great. At the close of this program a business session was held and important business was taken up.

A social followed when light refreshments were served, Mrs. Adams being assisted by Mrs. King and Mrs. Wolcott.

MISSIONARY SOCIETY
The Junior Missionary Society of the Central M. E. church met Wednesday afternoon with Mrs. J. W. Owens as hostess. After an election of officers for the ensuing year, the features of the afternoon were enjoyed by readings given by Mattie Frances Masterson, Julia Lovin and a piano solo by Mary Turner.

Dainty refreshments were served to the following: Mattie and Loula Masterson, Julia and Lottie Lovin, Mary Turner, Pauline Royer, Anna Louise Masey, Georgia Lee Weaver, Marie Patterson, Elizabeth Ann Hudson, Ruth Chunn, Frances Owens, Georgia Lee Weaver.

Over 200 Stills Taken by Mays

Law enforcement certainly is not lax in Morgan county, Sheriff J. V. May declared today, and then proved it. During his term of office, the sheriff stated, more than 200 stills have been confiscated and destroyed. Enough beer was taken to make more than 3,000 gallons of moonshine, or enough to supply a rather large city of thirsty individuals.

Licenses Being Paid Very Slowly

According to City Clerk Henry Hartung, city licenses are coming in very slow, and do not compare favorably with a year ago at the same date. There is yet about 25 days in which to pay them before they are declared delinquent. City tax payments are keeping pace with former collections, and these become delinquent February 1, with a 10 per cent penalty attached.

Hampton Named Deputy Marshal

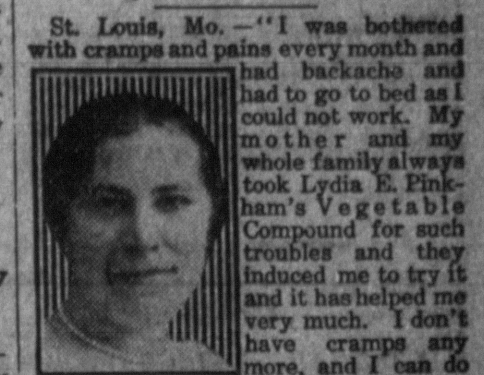

Announcement of the appointment of W. P. Hampton, formerly a prohibition enforcement officer, as deputy United States Marshal by Marshal Henry Skeggs, was received with much interest in this county. Mr. Hampton is well and favorably known in this section through his work with the enforcement organization.

Abercrombie Is Twin City Visitor

Joan W. Abercrombie, state superintendent of education, was in the Twin Cities for a short time yesterday, en route from Huntsville to Montgomery. Mr. Abercrombie delivered an interesting address at the opening of a new school in Huntsville.

CRAMPS, PAINS AND BACKACHE

St. Louis Woman Relieved by Lydia E. Pinkham's Vegetable Compound

St. Louis, Mo.—"I was bothered with cramps and pains every month and had backache and had to go to bed as I could not work. My mother and my whole family always took Lydia E. Pinkham's Vegetable Compound for such troubles and they induced me to try it and it has helped me very much. I don't have cramps any more, and I can do my housework all through the month. I recommend your Vegetable Compound to my friends for female troubles."—Mrs. DELLA SCHOLZ, 1412 Salisbury Street, St. Louis, Mo.
Just think for a moment. Lydia E. Pinkham's Vegetable Compound has been in use for nearly fifty years. It is prepared from medicinal plants, by the utmost pharmaceutical skill, and superior methods. The ingredients thus combined in the Compound correct the conditions which cause such annoying symptoms as had been troubling Mrs. Scholz. The Vegetable Compound exercises a restorative influence of the most desirable character, correcting the trouble in a gentle but efficient manner. This is noted by the disappearance, one after another, of the disagreeable symptoms.

FARM BUREAU MEN
ON WAY TO TEXAS

MEMPHIS, Tenn., Jan. 5.—(Spec-
ial)—The Farm Bureau Farmer-Busi-
ness Men party of farmers enroute to
Texas to study co-operative market-
ing as it is being done in that state
by the Texas Farm Bureau commodity
marketing associations arrived here at
7:40 Tuesday afternoon, 40 strong,
and immediately became the guests
of the Memphis chamber of commerce
for a three hour program during
which time they saw and were told
what the business men of Memphis
are doing through the agricultural
department of their chamber of com-
merce for the development of agricul-
ture in the Memphis territory.

Director E. R. Lloyd of the Farm
Bureau of the Chamber of Commerce
was master of ceremonies and Presi-
dent J. M. Walker, in a brief but ef-
fective way told the Alabamians why
the Memphis business men are vitally
interested in agricultural develop-
ment because it means more business
for them.

The workings of the Farm Bureau
and how it is appreciated by the peo-
ple of Memphis was related by Chas.
T. Haase, who was followed by George
R. James, prominent farmer, banker
and merchant, who talked from all
three angles stating that the improve-
ment of agricultural conditions by es-
tablishing efficient markets, enriching
soils and improving rural homes is a
problem for all because it means bet-
ter living and more business for all.
Editor C. P. Mooney, of the Commer-
cial Appeal, spoke briefly on the work
of the press following which Chas. W.
Rittenour, of Montgomery, president
of the Alabama Farm Bureau Federa-
tion thanked the Memphians for their
entertaining and instructive program.

Amusements

MADGE KENNEDY COMES
TO THE DELITE TODAY
Madge Kennedy has never appeared
to better advantage than in her latest
picture, "The Girl with the Jazz
Heart," which is being shown at the
Delite today. The reason may be that
she plays two roles, one that of the
title, the jazz hearted damsel, and the
other of a distinctly opposite type.
She leaves nothing to be asked in
either part.

The story isn't intended evidently
to teach a moral. Neither is it a de-
fense of "jazz." It appeals because
it is strictly alive from the beginning
to the end, and because it is so thor-
oughly American.

EILEEN PERCY COMING TO
THE DELITE FRIDAY

At the Delite Friday the attraction
will be Eileen Percy in "Hickville to
Broadway." The picture is described
as a sentimental comedy of village and
city life. The story opens in the for-
mer and moves to the latter. It treats
of a young girl's conspiracy with
friends to try out the moral quality
of her village fiancé by following him,
incog., to the White Light section of
Broadway when he visits that allur-
ing thoroughfare for the first time.
With Miss Percy appear William Scott
and Rosemary Theby.

THE LOST ROMANCE COMES
TO THE PRINCESS TODAY

A beautiful setting, built after the
Spanish type of architecture, and cost-
ing several thousand dollars, forms
the background for the principal
scenes in "The Lost Romance," which
opens at the Princess today for a two-
day run. The setting is supposedly
located in the mountains of Califor-
nia and consists of three large rooms,
with a beautifully finished exterior
and gardens. These gardens are the
perfect handiwork of skilled land-
scape decorators.

Romance is the outstanding theme
of the picture, and the setting, which
is supposedly the home of Aunt Bet-
ty, a pretty woman of mature years
who has been disappointed in love in
her younger days, in design and ef-
fect is such that it inspires romance.
The principals in the cast are Fon-
taine LaRue, Lois Wilson, Jack Holt
and Conrad Nagel.

MAKING STRONG
BID FOR OFFICE

G. O. Chenault, prominent local at-
torney, is making a strong bid for the
appointment to the office of U. S.
District Attorney for the Northern
District of Alabama. He is backed in
his effort by the judges of the state
supreme court, and the court of ap-
peals. Also a good many of the cir-
cuit judges and probate judges in the
counties embracing the district.

The fact that he has been a life-
long Republican, whose advice has fre-
quently been consulted in the councils
of his party, gives him strong en-
dorsement for the appointment.

Mr. Chenault enjoys a large practice
in this and adjoining counties, is a
pleasant, well met gentleman, and
should he get the appointment, will
carry with him to the duties of the
office a varied experience and good
equipment for the discharge of the
duties of the office.

Kiwanis Installs
Officers Thursday

The recently elected officers of the
Kiwanis club were installed at the
regular meeting of the club Thursday
noon. The following letter was ad-
dressed today to all members:

Fellow Kiwanians:—
When an election is held and a
party man—regular and all that—goes
down to defeat for some reason, usual-
ly lack of sufficient votes, he is in
political parlance a "Lame Duck." Of-
times the administration will take
care of him in some appointive office
and this is referred to as a "Lame
Duck" appointment.

Our big election was held last
Thursday night and the officers for
1922 duly elected. The inauguration
ceremonies take place 12 noon to 1 p.
m., Thursday, January 5th, at the
club room in Decatur. The line of
march is from your place of business
by the nearest route to the scene of
the festivities. Reservation has been
made for you. Let's give Joe Calvin,
his vice and second sub-vice and direc-
tors the reception they deserve by be-
ing in our place promptly at noon.

Yours, 'till the directors do us part,
LAME DUCK,
The New Secretary.

Team Chiefs Will
Map Out Schedule

Captains of all teams contesting in
the Y. M. C. A. bowling tournament
will meet Thursday night at 7:30
o'clock at the "Y" to map out a sched-
ule for the last half of the season.

The end of the first half this week
finds three teams in a triple tie for
the leadership. The Decatur Business
Men, winners of last year's cup, are
tied with the Albany Business Men and
the Blacksmiths for the lead, all three
teams having won all of their games
except three each.

Realty Transfers
Show Decrease

At the probate judge's office it was
ascertained that during the year 1920
there were 11,000 filings from all
sources of deeds and mortgages. In
1921 8,000 filings were recorded, a de-
crease of approximately 33-1.3 per
cent. There was also shown a de-
crease of about 50 per cent in real
estate transfers as compared with
1920. This falling off was accounted
for from the fact that land values in
the county had declined, and this rule
invariably follows conditions of this
kind. When land is cheap there are
not many buyers, when it goes high
everybody wants it.

CREDIT LIST FOR
DOCTORS TALKED

Medical men of Morgan county may
become better business men than they
were formerly. A resolution was
adopted this morning at a meeting of
the medical society as follows:

"RESOLVED, By the Morgan Coun-
ty Medical Society that the secretary
be instructed to prepare and submit
to the doctors in this county a ques-
tionnaire to ascertain the attitude of
the individual doctors as to estab-
lishment and maintenance of a credit
list, giving the names of those who are
unsatisfactory pay."

Narrow Escape
in Fall on Steps

Mrs. Charles Arnold, wife of a
prominent local business man, nar-
rowly escaped painful, if not serious,
injury late Wednesday when she slip-
ped and fell on the Tavern steps, fall-
ing several steps to the pavement.
Her face was bruised. She had been
calling on Mrs. Carter in the latter's
apartments in the Tavern. As she
started down the front steps, her heel
apparently caught in the step and she
was thrown to the ground.
